- Uses a variety of assessment strategies to enhance student learning and self-reflection.
- Keeps records and communicate student's progress to students, parents, and administrators.
- Reflects on assessment to create more effective teaching practices.

**What are the roles of the Alaska Statewide Mentor?**

Your Mentor is not here to evaluate you.

Your Mentor is a support to help you become a more effective teacher more quickly!

I needed to set goals

My mentor did a great job identifying my weaknesses in classroom management and gave me excellent advice about how to correct it. She also helped me set goals and strategies to improve my time management. Perhaps most importantly, she was attentive to my emotional well-being, providing support and a listening ear when I felt overwhelmed or defeated.

—Beginning Teacher, 2014
Alaska Statewide Mentor Project

Have you met your Alaska Statewide Mentor?

I was ready.

I knew my science content. I had a great internship with a very effective veteran teacher. I could relate to middle school kids and I really cared about them. I wanted to make a difference, but I soon found out I didn’t have all the skills I needed to be successful in my own classroom. My mentor was my lifesaver. Having someone to guide me saved me from many failures. I benefited and so did my students.

—Beginning Teacher, 2004
Alaska Statewide Mentor Project
Teaching is the only profession where entry-level personnel are expected to do the same job and perform at the same level of competence as experienced practitioners. There is typically no staged entry through residency, internship, or apprenticeship.

— Richard Ingersoll, Professor of Education and Sociology, University of Pennsylvania

The **Alaska Statewide Mentor Project** provides individualized support to first- and second-year teachers, helping them become part of an effective teaching force that responds to the diverse academic needs and cultural backgrounds of all students.

### How does Mentoring work?

The Alaska Statewide Mentor Project (ASMP) is designed to induct early career teachers into professional learning environments based on the norms of collaboration, high expectations, equity, ongoing inquiry, and reflection on practice. Working in partnership with a mentor, new teachers build structures that influence the way they learn—and the way they teach—so each will become the teacher whose classroom practices are ready to meet the needs of tomorrow’s children, as well as those of today.

But Alaska Statewide Mentors do more than help new teachers survive—they help them understand that excellent teachers build their practice one day at a time, from the first day they step into a classroom. Mentors encourage novices to set high expectations for themselves and their students, convey a belief in the power of the classroom teacher to affect student learning, and hold themselves personally accountable for the academic success of their students.

### Who are the Alaska Statewide Mentors?

Alaska Statewide Mentors are master teachers from across the state who work full-time with early career teachers. They are trained to induct early career teachers into professional learning environments based on the norms of collaboration, high expectations, equity, ongoing inquiry, and reflection on practice. Above all, Alaska Statewide Mentors are guides to help you find inspiration in your new profession, and to stay energized as you meet new challenges!

### Who gets an Alaska Statewide Mentor?

First- and second-year beginning teachers hired in participating districts have the opportunity to work with an Alaska Statewide Mentor. Unlike the induction models of many professions, the mentoring relationship is not evaluative: your Alaska Statewide Mentor is a sounding board, problem solver, advocate, and even an extra set of hands.
